

GEOPHYSICAL SURVEY

Millom

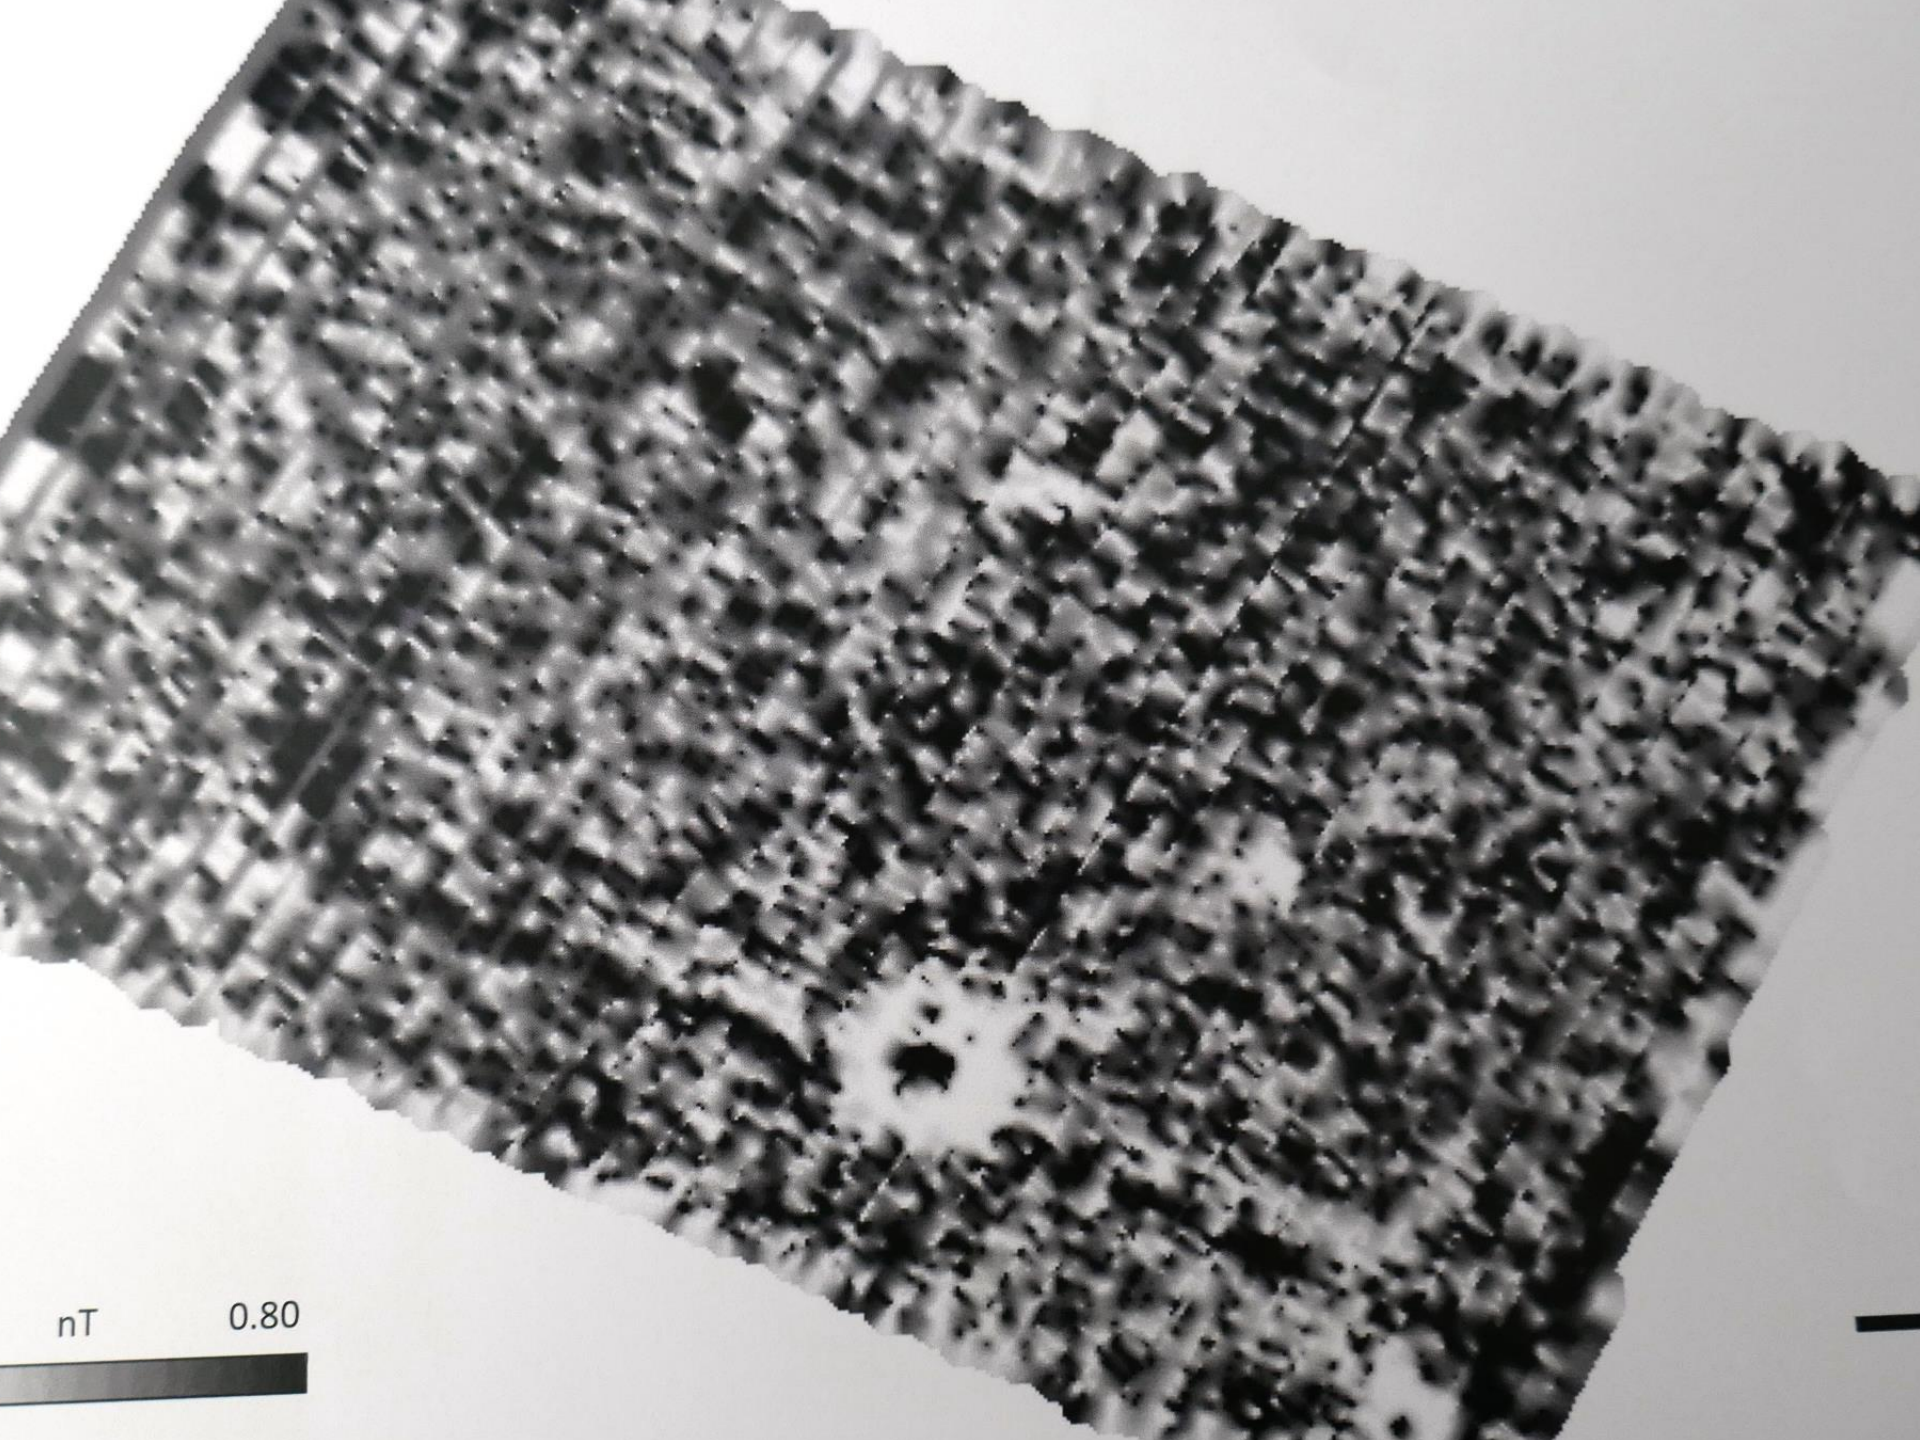

Peter Barton, historian, film maker

Peter Masters, Research Fellow, Cranfield University

- ▣ Peter Barton commissioned Peter Masters to conduct a geophysical survey of the cropmark field next to Archer's Field.

nT

0.80

- Curvilinear anomalies
- Linear anomalies
- Positive anomalies
- Dipolar anomalies
- Modern ferrous
- Services
- Linear cropmarks
- Cropmarks
- Survey Areas

Features

1. probable track, later than ditch
2. 3. 4. Kiln
5. Ditch
6. Sub circular weakly magnetic response
7. sub-rectangular response, possibly large pit

Next Step

- ▣ Electromagnetic induction (EMI)
- ▣ Ground penetrating radar (GPR)
- ▣ Dig
- ▣ Funding: set up a Crowdfunder: Millom Geophys (ends 4th Dec), so far £70.
